

## Junior Enrichment Programme 2017/2018

Levels 1-5

Chiswick House School is glad to offer your child a unique experience which is designed to spark the imagination, arouse natural curiosity, and stimulate each child's innate desire to learn. The after-school enrichment classes are packed with engaging activities, which will give children the opportunity to further engage in academic, social, and physical activities. Kindly refer to the timetable for all the necessary information regarding the after-school activities. This extended programme runs daily during term time and in line with CHS 2017/2018 Calendar.

\*with special emphasis on literacy using the online tool Literacy Pro and numeracy using Maths No Problem resources

At Chiswick House School we are committed to providing a variety of classes to maximize our children's potential, offer added experiences that support and strengthen children's academic skills and fostering a lifetime love of learning.

**The Garden Box** - We encourage our children to focus on taking up a healthy lifestyle. Enrichment children will be planting a selection of herbs and plants to then use the product to cook up some easy and delicious healthy recipes during their Bake Off sessions.

**Thinking Minds:** During this time children will be assisted for another hour by a qualified teacher to do their homework and deal with any difficulties that may arise. Additional study and reading help is given throughout this hour for those children finishing their work earlier.

**On the move:** Such activities instil a sense of self-confidence in children. Fitness develops a sense of respect and responsibility. Yoga is a fun, healthy and non-competitive activity which children love. During Chess children learn different tactics to sharpen their thinking skills. Show Time aims at enabling children to discover their talents, to grow gradually and at their own speed. It encourages the children's joy in performing and takes them on a journey into the world of fantasy and imagination. During Bake Off, recipes will vary from week to week. Apart from baking, children will be doing various activities such as cake decorating, healthy recipes, quick snacks, and mouth-watering fresh smoothies!
