Lara Darmanin - EY Summer School Coordinator

Ylenia Baldacchino - JY Summer School Coordinator

Dr. Emerald Zerafa - Concept Design & Theme Development Lead

ABOUT US

This year's summer school programme, *Once Upon a Bot*, invites children to embark on an exciting time-travel adventure! Starting from the dawn of prehistory, they'll journey through time, experiencing life in the past, exploring the present, and imagining what the future could look like. Along the way, they'll engage in a variety of fun and active movement challenges, creative hands-on activities, and even dive into the world of technology through innovative digital tools. The children will have the chance to work with Bee-bots to navigate ancient landscapes, use coding skills to solve problems, and step into the future with virtual reality sets, experiencing futuristic worlds firsthand. As they travel through time, there will also be plenty of opportunities for water games, including swimming for the older age groups, to cool off from the summer heat, ensuring everyone stays refreshed and energised. It's a unique blend of imagination, innovation, and outdoor fun that brings learning to life in the most exciting way possible!

PROGRAMME OPTIONS
